

Boarshaw Primary School

Year 6

**Geography: I'm a Year 6 Pupil,
Get Me Out of Here**

**Previous knowledge:
What should I already know?**

- Be able to use maps to identify physical features such as settlements, rivers and mountains
- Understand the 4 points of a compass and where these positions are on a map
- Use a map and a globe to find places

Key vocabulary

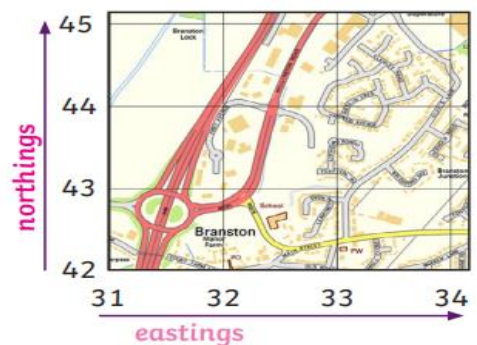

- Atlas** – a collection of maps showing each country in the world
- Compass** – a tool used for showing directions
- Easting** – the number used in a grid reference that run west to east
- Grid reference** – the numbered squares on a map used to locate a place
- Hemisphere** – these are formed by dividing the Earth into the Northern and Southern Hemispheres at the Equator
- Latitude** – the lines extending around the Earth horizontally
- Longitude** – the lines extending around the Earth vertically
- National grid** – a system used to split Great Britain into 100km squares
- Northing** – the numbers used in a grid reference that run south to north
- Ordnance survey maps** – detailed maps of Great Britain where each square represents 1km²
- Time zones** – an area of the Earth that has a specific time
- Tropics** – regions of the Earth that lie roughly in the middle of the globe

**Key knowledge:
What will I know at the end of this unit?**

- Know about time zones and work out differences
- Know what most of the ordnance survey symbols stand for
- Know how to use six-figure grid references
- Know about time zones and work out differences
- Know what ordnance survey symbols stand for
- Know how to use 6 figure grid references

Key facts / information

Grid references

Ordnance Survey (OS) map symbols

	Nature Reserve		Cycle Trail		Footpath
	Motorway		Train Station		Place of Worship

Compass points

- north (N)
- north-east (NE)
- east (E)
- south-east (SE)
- south (S)
- south-west (SW)
- west (W)
- north-west (NW)

	Start of unit	End of unit
1) Why do different countries have different time zones?		
2) Why do people use maps?		
3) What is meant by the terms longitude and latitude?		
4) How were goods transported across Britain around 100 years ago?		
5) What are the names of the four main points on a compass?		
6) What is the name of the imaginary line that splits the Earth into Eastern and Western Hemispheres?		

7) What do the following symbols mean?
